There is a larger destiny of which we are a part. Through knowledge of black holes, white holes, quasars, pulsars, the galactic center, the super galactic center and the four points of Avatar, as well as the moon's nodes, saturn any retrograde planets and intercepted or duplicated signs we may gain a clearer perspective of this possible destiny. By understanding where these points are located in our natal chart, we may begin to recognize and use some of the more unusual talents and abilities we have, to share with the rest of the world. With this knowledge and tools to integrate this information, we are on our way to truly manifesting and living our greater purpose on Earth.

Bring your chart, if you have one! There are a number of free sites on-line that provide charts that you may print out. It is critically important to have not only the birthdate and place, but the time of birth for greater accuracy. The Koch House system is the most detailed and will give the most mathematically accurate chart.

This is an introduction evening. No need to understand astrology to discover some of your cosmic connections. If you do not know your time of birth, you may still have connections that may be gleaned from only the date.

For those of you that have felt there is something specific that you are here to do and have yet to discover the path to actively engage this purpose, this sharing is for you. This is for newbies to astrology and those that have been working with it for years.

Mary has 36 years experience doing charts, consultations and working with these powerful cosmic aspects. Join us for what promises to be an enlightening evening.
